

# MAX STRETCH™

LOWEST COST OF WRAPPING  
PER PALLET GUARANTEED

**20%**  
GUARANTEED  
LOAD INTEGRITY/  
MEMORY

MAX  STRETCH™  
Range:

Available in machine roll

Available in machine roll

## Performance Features :

- Cost Effective
- "Stiff" Film
- Economical Transportation/Shelf Space
- Ultimate Performance
- Excellent Optic
- Environmental & User Friendly

## Less Film Consumption Per Pallet

9µm  
Weight: 67.8gm

12µm  
Weight: 83gm

15µm  
Weight: 116.8gm

20µm  
Weight: 185.5gm

25µm  
Weight: 208.6gm

Above comparisons are based on testing and demonstration conducted in-house

Above comparisons are based on assumption of 8 (eight) laps per pallet with dimensions 1100mm x 1210mm x 2110mm at 30% - 50% stretch

5. After stretching the film, step around the corner with tension still applied to prevent puncturing or tearing. Then release and let the film freely unwind.

1. Attach the film to the load and stand about 250mm away while you wrap it.

2. Let the film unwind freely until you reach the point (before the corner) where you need to apply tension.

**HOW DOES IT WORK?**  
Follow these five simple steps to apply Maxstretch Film correctly and stretch the benefits further.

4. Stretch the film about 30-50% (feel it in the tension) before wrapping around the corner.

3. Hold the film parallel with the corner of the pallet before you lock it off with the palm of your hands or thumbs.

## Maxstretch Vs 23um

Others | 1 roll =

23µm x 500mm x 209 Meter

MAXSTRETCH | 1 roll =

X-treme  
15µm x 500mm x 300 Meter

Strong  
12µm x 500mm x 400 Meter

Lite  
9µm x 500mm x 500 Meter

Above comparisons are based on testing and demonstration conducted in-house

Above comparisons are based on assumption of 10 (ten) laps per pallet with dimensions 1100mm x 1210mm x 2110mm at 30% - 50% stretch
